

Hi there,

Recent HMRC case studies highlight contractors in nursing and IT losing over **£12,000** to tax avoidance schemes. These "umbrella companies" promised higher pay but delivered only stress, high fees, and legal trouble.

Watch for these red flags:

- Promises of keeping **80% to 90%** of your pay.
- Payments labelled as "loans" or "grants" rather than salary.
- Pressure to sign multiple contracts or agreements.

Stop. Challenge. Protect yourself.

Even if an agency manages your payroll, **you** are legally responsible for your taxes. Read the full stories and learn how to stay safe here: [HMRC: Tax avoidance — don't get caught out.](#)

Best regards,
