

Occupational Therapy Guides

On assignment

What happens if I'm sick or can't attend work?

Let both your placement and your consultant know as early as possible. We'll inform the client and help manage your return.

What if I have a problem while on placement?

Speak to your consultant. We're here to help with any issues - whether it's something with the role, the setting, or the team.

Can I take time off between contracts?

Yes. One of the benefits of locum work is flexibility. Just let us know in advance if you're planning time off so we can make arrangements.
